# Can data in a Learning Management System support student success?

29 June 2016

## Interested if provided with...

# Role of LMS to achieve academic success?

# Percentage of UG modules use of LMS

# Use of LMS

UNIVERSITEIT VAN PRETORIA  
UNIVERSITY OF PRETORIA  
YUNIBESITHI YA PRETORIA

# Rationale

for integrating technology to  
support student engagement

# Rationale for integration of LMS

## Past:

- International and National trends

## Present:

- Growth of student numbers
- Quality of education
- Academic support
- Student success

# Case studies

# Faculty questions

Are our students  
engaging actively  
online?

Are students at risk  
in this module also  
at risk in others?

Who are the  
students at risk  
based on LMS  
data?

Do my course design impact  
student engagement?

Are we  
disadvantage  
any group of  
students?

How can we  
further engage  
the students in  
the “middle”?

How can we  
further engage  
the at-risk  
students?

# Student report

## Your Total Activity Compared to the Course Average

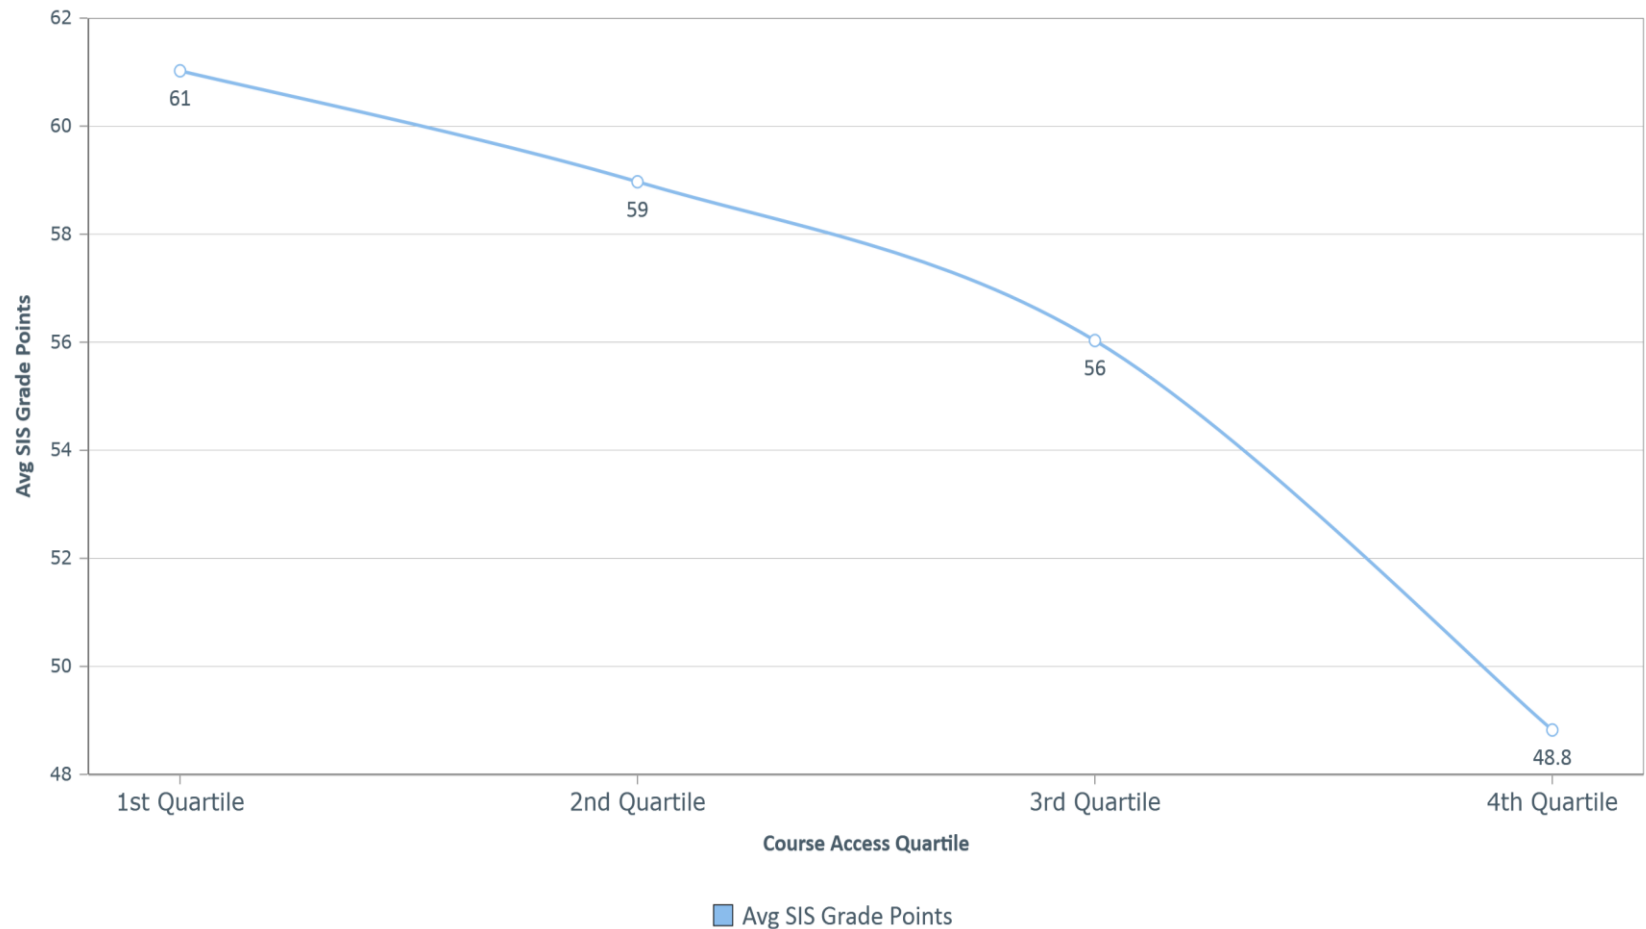

## Accesses vs Course Average

Class Standing (%tile)	Credits Attempted	Credits Earned
8 %	8.000	0.000

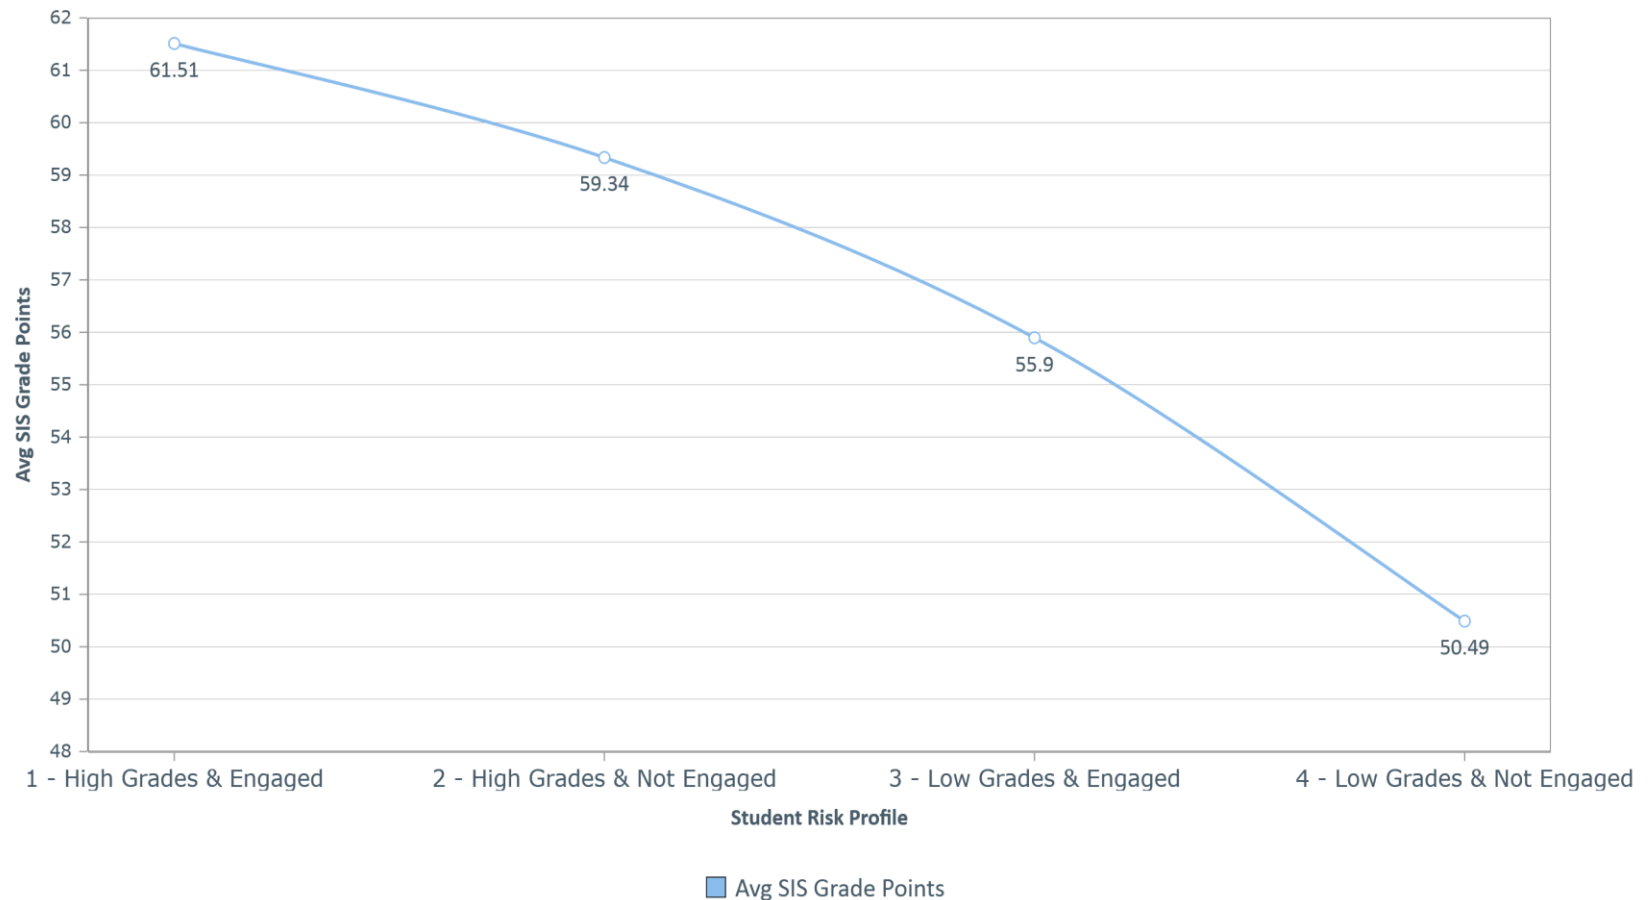

# Can data in a Learning Management System support student success?

Average final grade compared to course access per access quartile

# Can data in a Learning Management System support student success?

Average final grade compared to student risk profile

# Conclusion

- LMS data in isolation
- Impact of professional development / support
- Integration with other data sets
- Skills set needed
- Policies
- Context: Correlation does not equal causation
- Provide insights that might not be obvious
- LMS data can inform lecturers, students & advisors
- Guide actions such as learning design
