EMS DATA ANALYTICS FRAMEWORK

Support the **implementation** of innovative teaching & learning strategies

Manage **academic staff support** & development initiatives

Monitor student success & develop **student support** initiatives

METHOD: CUAR RESEARCH DESIGN

Step 1: Critique phase
(Where are we?)

Critical
engagement of
academics with
data was **limited**

Step 2: Utopian phase
(Where do we want to be?)

Academics to **embrace**
the value of the
information and to
review TL practices to
stimulate innovation.

Assist in the
development of
competencies linked to
being an excellent
teacher

Step 3: Realisation phase
(How would we realise our
“Utopia”?)

MANAGEMENT OUTCOMES

*Data Analytics as
management tool*

**Initiates critical conversation among academic staff
and management**

**Reflection by academic staff, HoD and management to
inform Faculty teaching and learning strategies**

**Support from Teaching and Learning Office for
academics**

ACADEMIC STAFF OUTCOMES

Scholarly development of teachers

Academic staff value data and analytics as complementary to teaching efforts

Academic staff visit TL Office more frequently to explore analytic opportunities (Self- and student development)

Academic staff research, develop and evaluate own support initiatives (SoTL)

STUDENT OUTCOMES

WAY FORWARD

Profiling repeating students

More frequent reporting
(profile tables, student info-tool & postgraduate modules)

Measuring impact / value over time
