

Is what we are doing helping our students?

Dr Genevieve Hundermark
Siyaphumelela Conference
June 2016

“We” = Faculty of Humanities Teaching & Learning Unit at Wits

“*helping students succeed*” = throughput (specifically first years)

Interventions ??

The survey

**22 students
= sample**

RESULTS

What did we discover?

Comparison of markers to results

Of the 22 students:

- **20** : 2 at-risk courses (of possible 4)
(Quarter 1) – less than 50%
- **2** : 3 at-risk courses
- **14** : 6 or more at-risk markers (22 possible markers)
- **9** : all from a professional degree

Common at-risk markers

Interventions

- Quarter 1
 - 30 students – FYE camp

+ APS

Interventions

- Quarter 2
 - Information session
 - Invitations to face-to-face consultations (optional)
 - Reflective survey
 - Invitation to mentoring program offered through CCDU
 - 7 of 22 students participated
 - 6 were from professional degree (of 9 students)

Interventions

- Semester 2
 - Email invitations for face-to-face consultations
 - Learning skills workshops:
 - Academic reading skills
 - Academic writing skills (with Writing Centre)
 - Note-taking skills
 - Study skills
 - Test/Exam-preparation skills
 - Journal
 - Mentoring program

RESULTS

The word "RESULTS" is rendered in a bold, three-dimensional green font. A magnifying glass with a silver-colored frame and a black handle is positioned over the letters "SU". The magnifying glass is tilted slightly to the right, and its lens is focused on the "SU" portion of the word. The entire graphic is set against a plain white background.

- Of 22 students:
 - 9 passed (PCD)
 - 8 return (RET)
 - 2 return with conditions (RER)
 - 2 readmitted with conditions
 - 1 may not return
- Only 5 students attended interventions (1 PCD, 3 RET, 1 RER)

How predictive is the survey?

- 10 students failed more than 3 courses
 - 8 “marked” at-risk
- Anomaly:
 - 3 students “marked” at-risk – failed 0 courses – the “X-factor”

Four red dice are arranged in a row to spell out the word "RISK". The top faces of the dice show the letters R, I, S, and K. The dice are slightly offset and have a soft shadow beneath them.

3+ courses failed

3	

3+ courses failed

Which interventions helped?

- Sample too small
- University data – preliminary analysis of interventions university wide
- May be possible to predict risk or lack thereof
- Students move in and out of risk
- Important to be responsive
- Mentoring – 5 of 7 students in sample passed or returned

Recommendations

- Language intervention
- Mentoring
- Time management
- ICT skills
- Reading
- At-risk courses/combinations
- The “X-factor”
- Close the loop

Thank you!
